

BULLET BLOCKS™

for Rifles

Stackable and designed to interlock

Create Your Own Firing Range!

Guaranteed No Ricochet!

We Stop Bullets!

Introducing *Bullet Blocks™ for Rifles:

Advanced Target Technology

This target system uses the most advanced technology available.

"No Ricochet"

This revolutionary material does not degrade from incoming projectiles. A cubic foot block can contain thousands of rounds depending on caliber.

"BULLET BLOCKS™" will accept the following:

Approved Rifles	
223	7mm .Rem-Mag
7.62X39	.243
.308	.270
30-06	300 Win-Mag
7.62X54R	300 ultra-mag

- This is the only target system that allows you to create your own firing range by stacking and **interlocking multiple blocks
- Same design as sold to "Military Shoot Houses"
- Create your own backstop
- Light weight and portable
- Designed to interlock for a secure fit
- Encapsulates projectiles inside blocks
- Material environmentally friendly
